SUBJECT INDEX TO VOLUME 130

ABDOMEN
surgery, diagnosis of Hodgkin's disease, 853
trauma, penetrating, conservative management of, 677
Abnormalities and deformities
scoliosis, Harrington procedure for treatment of, 1067
Acidosis
cerebral, experimental, following increased intracranial pressure, 483
Amputations
below-knee for arterial insufficiency, 641
Aneurysms
aortic, abdominal, stress-strain and collagen-elastin content of, 459
abdominal, surgically treated, 5 year history of, 981
physiology, in dilated artery proximal to arteriovenous fistula, 636
Antibiotics
experimental, for intestine, 1006
guidelines for in hand infections, 119
Aorta
abdominal, aneurysms, surgically treated, 981
Appendix
calculus, elective appendectomy for, 439
inflammation, in infancy, 99
surgery, elective for calculus, 439
technique of total excision, 891

BILE
excessive output of chronic hepatic disease, 243
Bile ducts
common, surgery, T-tube drainage of, 127
Biliary tract
obstruction, and duodenal diverticula, 829
operations, complications, ascites, 494
Bladder
substitute, ileal segment as, 869
surgery, Y-V vesicourethroplasty in children, 1059
urinary, fistula, treatment of, 1082
Blood
arterial, sampling of, 701
coagulation, experimental, hemostasis and isobutyl cyanoacrylate tissue adhesive, 3
flow, gastric, experimental distribution during indomethacin administration, 789
and oxygen consumption in severe burns, 23
lymphocytes, altered nucleic acid synthesis in thermal burns, 783
transfusion, experimental, cross, of effluent, from ischemic liver and intestines, 1015
immediate reaction, diagnosis and treatment of, 665
volume, changes after injury and transfusion, 801
Blood vessels
aneurysms, aortic abdominal, stress-strain and collagen-elastin content of, 459
in dilated artery proximal to arteriovenous fistula, 636
artery, aortic abdominal, aneurysms, stress-strain and collagen-elastin content of, 459
carotid, protection by pedicled omental wrapping, 57
dilated proximal to arteriovenous fistula, 636
insufficiency, below-knee amputations for, 641
pulmonary, simple retractor to facilitate operations on, 897
disease, in dilated artery proximal to arteriovenous fistula, 636
fistula, arteriovenous, aneurysm changes in dilated artery proximal to, 636
response, experimental, in irradiated wounds, 875
roentgenography, in portal hypertension, 37
shunt, mesocaval, and use of Teflon® prosthesis, 525
saphenoumbilical, 1092
surgery, saphenoumbilical shunt, 1092
stripping for varicose veins, 497
veins, femoral, incompetence of, in situ saphenopopliteal bypass graft for, 279
internal jugular, use of for placement of central venous catheter, 520
ovarian, syndrome, 443
popliteal, incompetence of, in situ saphenopopliteal bypass grafts for, 279
portal, hypertension, angiographic investigations in, 37
hypertension patent umbilical vein in, 77
saphenoumbilical shunt, 1092
saphenous, operative exposure of, 694
stripping for varicose, 497
subclavian, infraclavicular catheterization of, 673
surgical puncture of, 1095
umbilical, catheterization and cirrhosis, 272
patent, in portal hypertension, 77
varicose, esophageal, bleeding, Sengstaken-Blakemore tube for, 879
Book Shelf
Origin and evolutionary principals of spring forceps, 356
Origins of gastroenterostomy, 1103
Brain
alterations of free amino acids, experimental, during acute hepatic coma, 263
Breast
cancer; carcinoma, granulomatous lesions presenting as, 478
Burns
blood flow and oxygen consumption in severe, 23
infection, neutrophil dysfunction, 431
thermal, altered nycleic acid synthesis in lymphocytes in, 783

CALCIUM
lymphatic transport of during acute experimental hypocalcemia, 509
Cancer
breast, carcinoma, granulomatous lesions presenting as, 478
chemotherapy, arterial infusion, surgical basis for, 581
colon, carcinoma, analysis of 860 patients, 259
esophagus, carcinoma, analysis of records of 1,657 patients, 997
gastrointestinal, oral methotrexate therapy of, 292
liver, carcinoma, disseminated, surgical basis for arterial infusion chemotherapy, 581
carcinoma, metastases, treatment with systemic fluorouracil, 773
lung, carcinoma, diagnosis, bronchial brushing in, 67
oropharynx, carcinoma, en bloc resection of pterygoid region for, 349
pancreas, carcinoma, treatment, advantages of bypass operations over radical pancreatoduodenectomy for pancreatic carcinoma, 1049
pelvis, carcinoma, extensive operations for, ileal segment as bladder substitute in, 869
prostate, carcinoma, estrogen and survival data in, 505
treatment, estrogen and survival in carcinoma of prostate, 505
Chemotherapy
arterial infusion, surgical basis for, in disseminated carcinoma of liver, 581
Collagen
synthesis, experimental, fate of

and deposition in dehisced and resutured wounds, 487
Collective Review
Cyclic dynamism of incidence and complications of ulcer disease, 709
Immunologic enhancement, 1109
Management of tumors of liver, 371
Surgery of parathyroid glands, 901
Survey of techniques and results of hiatus hernia repair, 131
Techniques, results, and prospects of heterotopic liver autotransplantation, 531

DIAPHRAGM
surgery, experimental, plastic and cutis prostheses in growing host, evaluation of, 1077
Drugs
dextran 40, effects during renal hypoperfusion, 658
fluorouracil for hepatic metastases, 773
indomethacin, gastric flow and its distribution with, 789
methotrexate therapy for gastrointestinal carcinoma, 292
noradrenaline, effect on renal response to hemorrhage, 813
phenoxybenzamine, effect on renal response to hemorrhage, 813
propranalol hydrochloride (Inderal®), beta adrenergic blockade in treatment of septic shock, 1025
tridihexethyl chloride, effects of, on gastric acid secretion during coma, 61

EDITORIAL
Medical and legal implications of mammography, 347
Primary and secondary common duct stones, 1091
Short thoughts on long hair, 516
Temper forthrightness to cancer patient with compassion, 886
Time for progress in management of colonic and rectal carcinoma, 691
Why confuse the truth? 123
Embolism
pulmonary, experimental, selective lysis of, 821
fatal, prevention of, 403
Esophagus
cancer; carcinoma, analysis of records of 1,657 patients, 997
gastroesophageal reflux, prevention of after resection, 1035
surgery, experimental, prevention of gastroesophageal reflux, 1035
transplantation, results of 117, 1054
varix, bleeding, Sengstaken-Blakemore tube for, 879
Extremities
amputation, below-knee for arterial insufficiency, 641
wounds causing, 682
FLUIDS
body, distribution following hemorrhage and resuscitation in combat casualties, 453
Fractures
hematoma, biochemical characteristics of, 847
mandible, treatment of, semi-open method, 865

GALLBLADDER
excision, mortality after, 64
Gastrointestinal tract
carcinoma, oral methotrexate therapy for, 292
hemorrhage, critical review of 425 patients, 419
operative mortality from in general and private hospitals, 778
rupture, in children by blunt trauma, 655

HAND
infections, antibiotic guidelines for, 119
Heart
function, automatic monitoring postoperatively, 333
Hernia
surgery, method for repair in children, 353
Hodgkin's disease
abdominal, diagnosis of, 853

INFANTS
appendicitis in, 99
newborn, pneumatosis intestinalis, 806
reducing hazards during cesarean section, 124
Infection
wounds, decrease in bacterial load and rate of healing, 616
Infusion
arterial chemotherapy of disseminated carcinoma of liver, surgical basis for, 581
Instruments and apparatus,
electronic stress-strain tensiometer, in wound healing, 685
Sengstaken-Blakemore tube for bleeding esophageal varices, 879
simple retractor, to facilitate operations on pulmonary artery, 897
television display unit, for automatic monitoring, 333
triple lumen gastric tube, 696
Intestines
antisepsis, experimental, 1006
bacterial flora, experimental antisepsis of, 1006
colon, cancer; carcinoma, analysis of 860 patients with, 259
fistula, diagnosis and treatment, 1082
transverse and descending, carcinoma of, 259
disease, pneumatosis in infancy, 806
duodenum, diverticulum, and biliary tract obstruction, 829
fistula, surgical correction of, 1099
surgery, advantages of bypass operations over radical pancreatoduodenectomy in treatment of pancreatic carcinoma, 1049
correction of lateral fistula, 1099
ileum, segment as bladder substitute, 869
surgery, retroperitoneal ureteral conduit, 414
ureteroileal conduit stoma, 888
ischemia, experimental, cross transfusion of effluent blood from, 1015
jejunum, surgery, pancreaticojejunostomy, 518
Isotopes
radioactive pertechnetate (^{99m}Tc) to determine vascular status of pedicle skin flaps, 87

JOINTS
knee, amputation for arterial insufficiency, 641
lateral aspect, anatomic features of, 11

KIDNEYS
blood supply, experimental, effects of dextran 40 during hypoperfusion, 658
experimental, effect of noradrenaline and phenoxybenzamine on, 813
transplantation, cadaver donors, injury of, 467
oliguria following donation by blood relatives, 29
trauma, cause of in kidneys from cadaver donors, 467

LIVER
cancer; carcinoma, metastases, treatment with systemic fluorouracil, 773
surgical basis for arterial infusion chemotherapy of disseminated, 581
cirrhosis, and umbilical vein catheterization, 272
coma, hepatic, experimental alterations of free amino acids in brain during, 263
disease, chronic, excessive output of bile in, 243
function, experimental, alterations in plasma-free amino acids, 794
inflammation, gonococcal simulating acute cholecystitis, 54
ischemia, experimental, cross transfusion of effluent blood from, 1015
transplantation, auxiliary function of, 622
heterotopic, experimental, survival and function after, 859
human, donor in, 988
orthotopic of porcine, 105

tumors, benign, experience with, 285
Lungs
blood supply, prevention of fatal embolism, 403
cancer; carcinoma, bronchial brushing and diagnosis of, 67
embolism, experimental, selective lysis of, 821
technique of selective embolectomy without bypass, 1073
function, automatic monitoring postoperatively, 333
surgery, embolectomy, selective pulmonary without bypass, 1073
traumatic shock, damage following, 15
Lymph
circulation, transport of calcium during acute experimental hypocalcemia, 509

OROPHARYNX
carcinoma, en bloc resection of pterygoid region for management of, 349
Oxygen
consumption and blood flow in severe burns, 23

PANCREAS
cancer; carcinoma, treatment of, 1049
ducts, experimental, ligation, immunofluorescent studies after, 72
pressure within, 275
surgery, advantages of bypass operations over pancreatoduodenectomy in treatment of pancreatic carcinoma, 1049
pancreaticojejunostomy, 518
Pelvis
cancer; carcinoma, extensive operations for, ileal segment as bladder substitute in, 869
Peritoneum
inflammation, continuous postoperative peritoneal lavage for, 254
experimental, high dose chemotherapy in, 94
exudates, bacterial quantification of, 267
Prostate
cancer; carcinoma, estrogen and survival data in, 505
Prostheses
plastic and cutis in growing host, evaluation of, 1077

ROENTGEN RAYS
contrast medium, Moljodol®, for fetography and molegraphy, 649
diagnosis, fetography and molegraphy, 649
therapy, experimental, of wounds, vascular response in, 875

SHOCK
septic, treatment of by beta adrenergic blockade, 1025
traumatic, mechanism of pulmonary damage, 15
Skin
grafts, vascular status of pedicle flaps by use of radioactive pertechnetate (^{99m}Tc), 87
Spine
scoliosis, effects of Harrington procedure for treatment of, 1067
surgery, Harrington procedure for treatment of scoliosis, 1067
Stomach
blood supply, experimental, its distribution with indomethacin, 789
cancer; carcinoma, analysis of 1,657 patients with, 997
cardia, carcinoma of, analysis of 1,657 patients with, 997
gastroesophageal reflux, prevention of after resection of lower esophagus, 1035
secretion, effects of anticholinergic drug during coma, 61
vagotomy, and drainage, gastric retention after, 1044
Surgery
aortic aneurysms, surgically treated, morbidity and mortality, 981
elective, for appendiceal caculus, 439
experimental, alterations of free amino acids in brain during acute hepatic coma, 263
alterations in plasma-free amino acids in hepatic insufficiency, 794
auxiliary liver allografts, function of, 622
cerebral acidosis following increased intracranial pressure, 483
collagen synthesis and deposition in dehisced and resutured wounds, 487
cross transfusion of effluent blood from ischemic liver and intestines, 1015
diaphragm, plastic and cutis prostheses in growing host, evaluation of, 1077
